### DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10, drawn to a film supply roll support apparatus, classified in class 242, subclass 559.1.
  - II. Claims 11-33, drawn to a film supply apparatus, classified in class 242, subclass 563.
  - III. Claims 34-40, drawn to a foam dispenser system, classified in class 53, subclass 266.1.
  - IV. Claims 41-44, drawn to a method of supplying film with a tension control, classified in class 242, subclass 420.
  - V. Claim 45, drawn to a film roll core insert, classified in class 242, subclass 611.2.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, all of inventions I-V have separate utility. For example, the roll support of the Group I invention could be used in systems or methods other than that set forth in Groups II-IV and could be used with other or no core insert as in the Group V invention. The inventions of Groups II-IV need not be used with each other or that of the Group I invention, nor with the core insert of the Group V invention, etc. See MPEP § 806.05(d).

Art Unit: 3654

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because the searches for the different groups are not coextensive, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
